 **Scandlines**

Welcome aboard

Have an enjoyable break at sea – with Scandlines

A crossing on a Scandlines ferry will be a unique experience for your customers – inhaling the bracing sea air, gliding over the waves of the Baltic Sea or Öresund and enjoying the maritime atmosphere of the harbour towns and cities. Your guests have time on board for eating, relaxing and shopping.

The Onboardshop and perfumery on board provide your guests a huge and attractive assortment of perfumes and cosmetics of well-known brands. Further, they can purchase wine, spirits, beer, soft drinks, sweets, accessories – or popular Scandinavian specialities as souvenirs.

Our different meal outlets on board offer carefully selected delicacies. For Scandlines, the quality of the dishes and satisfied guests are a key priority. For this reason we are pleased that our customer surveys show a high level of satisfaction with the food on board among our bus groups.

On both the Puttgarden-Rødby and the Rostock-Gedser crossings we offer the popular Scandlines Buffet all inclusive - eat and drink all you can! During the day we offer breakfast, lunch and dinner buffets. At the Helsingør-Helsingborg crossing your guests can stay on board the ferry "M/S Aurora" during a number of crossings while eating in the maritime Waves Restaurant and enjoying the beautiful view to Kronborg Castle. Please note that the bus will stay in the harbour during these crossings.

At all three crossings the cafeteria foodXpress also offers a wide range of freshly prepared sandwich products, hot and cold meals and drinks.

Group menus

At the Puttgarden-Rødby and Rostock-Gedser crossings we offer a selection of group menus which can be ordered in advance. Special menus for groups of children and young people are also available. With a wide range of delicious breakfast, lunch and evening meals, our group menus include something for everyone! If you prebook the group menu, we will not only reserve tables for your guests on board, but also offer favourable prices (compared to list prices on board).

At the last page of this price list you will find an overview of the different group menus offered on board.

See more details at www.scandlines.com/groups in the section of the website accessible for bus operators only.

To order group menus, please contact our Service Centre by email: gruppen@scandlines.com.

The Environmentally Conscious Scandlines

Scandlines has the world's largest fleet of hybrid ferries which combines traditional diesel power with electric battery power. On the ferry crossing Puttgarden-Rødby the ground-breaking hybrid system reduces CO2 emissions by up to 15 percent. The hybrid system is combined on all ferries with closed-loop scrubbers which clean the engine, exhaust streams and reduce sulphur emissions by at least 90 percent.

The vision of Scandlines is to deploy emission-free ferries on the ferry crossing Puttgarden-Rødby. Therefore, we invest in technology and are at the same time moving towards an environmentally friendly future.

News!

In 2016, a new world opens on the ferry crossing Rostock-Gedser. With the deployment of our new hybrid ferries M/V Berlin and M/V Copenhagen, we are providing double capacities and improved logistics on this route.

The design and interior of all passenger areas on board the new ferries are inspired by nature and landscape. From the large and bright areas on board the guests will have a fantastic view of the Baltic Sea. The Scandlines Buffet in the ferry's front area gives room for 300 guests and the same goes for the cafeteria foodXpress that is located in the middle of the ship. From here, the guests have direct access to the large and modern Onboardshop. On the upper deck the café Berlin Xpresso is arranged with colours inspired by the beach and with access to the outer deck.

All passengers receive a maritime experience in a class of its own! The new ferries offer an exceptional variety for bus groups that are using this popular ferry crossing to and from Scandinavia.

We are looking forward to welcome you and your guests on board our ferries in 2017!

In order to continue the innovative initiatives towards emission free ferries we through the MARPOL surcharge distribute a smallest possible amount on all shoulders, thus aiming at a more sustainable ferry service.
